A Bi-Annual Newsletter of  
IQAC, Tinsukia College, Tinsukia (Assam)  
Vol. VII • No. 9 • September, 2020

## From the Desk of Principal

Education being one of the most affected sectors of recent lockdowns due to Covid-19 pandemic. Students across the world are losing valuable time in pursuing education in this period and still most of them are very depressed and confused about their future career. We have never faced such a situations earlier. It is a big challenge for all of us now to channelize our students on the right direction for future. We all together have to work hard to overcome this hard time. I hope we will be able to cope with the challenging situation with the help and support of the stakeholders and well-wishers.

Tinsukia College is one of the pioneer higher educational institutions in the north eastern part of Assam. We have already celebrated diamond jubilee of the college in the year 2016. The college has been catering the need of higher education to thousands of students of Assam and Arunachal Pradesh. It has always been a challenge to ensure all round development of the students especially in the backward area like Tinsukia. The implementation of CBCS in degree level makes it more challenging. But we are trying to provide ample opportunities to our students according to our ability and capacity.

It is a matter of great pleasure that the next issue of the Tinsukia College Newsletter 'Chronicle' is going to be published. This issue of newsletter will include the important events and achievements of the college that have been taken place during the period from July, 2019 to September, 2020. I wish all the best to the IQAC and entire team associated with the publication of this issue and hope the issue will be published in a very beautiful and meaningful way.

# Editorial

We feel truly happy to bring out this new issue of Tinsukia College Chronicle. This issue of Chronicle covers a time period from July 2019 to September 2020. It takes a much longer period of time compared to the usual time period of publication of Chronicle, which is six months, to bring this new issue before you. It's a technical failure on our part for which we couldn't bring the new issue of Chronicle on time. We apologize for the delay in publication of the same.

However, we are trying our level best to incorporate all the activities performed on and off the college campus, within July 2019 to September 2020, by the college fraternity in this new issue of Chronicle. Despite our sincere efforts, we may miss out some important events or activities to include in this issue. We request your forgiveness for such unintentional mistakes.

We are bringing this issue in the midst of Covid-19 pandemic. This pandemic has a kind of catastrophic impact on almost everything. This has made life so vulnerable that we just lose our hope for living. We just don't know how to respond to the consequences of this ongoing pandemic. It is in this backdrop that this pandemic related developments needs to be scrutinized as well as analyzed adequately so as to find ways to address the odds of any such pandemic that may occur in near future. Here comes the need of scrutinizing of our higher education system in the light of the requirements of a pandemic. Let's make an effort in initiating an introspection about our higher education system with an objective to make it a real trouble shooter in time of need. Well directed research in medical science as well as life skill education can go a long way in this regard.

With regards

Mr. Boikuntha Das
